

2016 FORD SHELBY GT-H

Racing into the Hertz Adrenaline Collection this Summer

50TH ANNIVERSARY EDITION FORD SHELBY GT-H

A Tribute to a Classic

Fifty years ago, Ford Motor Company, Shelby American and Hertz teamed up to introduce the 1966 Shelby GT350-H - kicking off what was known then as the Hertz "Rent-A-Racer" program. To celebrate 50 years of the famed Shelby GT350-H "Rent-A-Racer," the three iconic brands have partnered again to create a special run of performance-modified 2016 Shelby GT-H vehicles. Beginning this summer, a limited number of 2016 Shelby GT-H vehicles will be available for rent exclusively through the Hertz Adrenaline Collection at select U.S. airport locations.

50 Years of Style

The 2016 Ford Shelby GT-H is instantly recognizable with several styling enhancements that celebrate its heritage.

Each Shelby GT-H wears black exterior paint, set off with gold racing stripes, a hallmark of the Hertz brand dating back to the 1920s. Shelby's traditional "Le Mans" dual racing stripes are combined with a set of rocker stripes that include special "Shelby GT-H" nomenclature.

Each car sports a Hertz Edition emblem on the front fenders, and features Hertz Shelby GT-H sill plates and a numbered badge. Special badges appear in the front grille, rear faux gas cap and trunk lid. Inside, Shelby GT-H logos are on the head restraint, sill plates and floor mats.

To hint at the 5.0 liter V8 engine's capabilities, the Ford Shelby GT-H is fitted with a unique Shelby-designed vented hood, carbon fiber front splitter and rear spoiler.

50 Years of Performance

The 50th Anniversary 2016 Shelby GT-H is packed with performance parts that embody the iconic Shelby design.

Ford Performance cat-back performance exhaust for that throaty sound that makes this car unmistakably a Shelby Mustang GT-H.

To put all of the horsepower to the ground, the Ford Shelby GT-H also comes with the Ford Racing Handling Pack, including special-tuned dampers, lowering springs, sway bars and a staggered wheel kit.

The Shelby GT-H rides on 19-inch aluminum wheels wearing high performance Michelin rubber.
